

REVISED AMENDMENT TO EXISTING SYLLABUS FOR

Date Revision Shared with Students: **Monday, March 30th 2020**

In response to the 2020 COVID-19 global pandemic, all courses at the University of Alberta moved to remote delivery, effective March 17, 2020. Subsequently, a decision was made to adjust the grading scheme for all University of Alberta courses for the Winter 2020 term to award one of the following grades: CR (credit) or NC (no credit) as indicated in the *University Calendar*.

The changes were put in place to ensure equity among students, preserve academic integrity in extraordinary circumstances, and to manage the issues presented by an uncertain future, including the impact on our students and human resources.

To ensure clarity for students, all Winter 2020 course outlines for both undergraduate and graduate courses are to be updated using this template to outline changes to exams, assessments and grading and shared with students.

Course Code: 82224

Course Title: MAT E 201 - B1 Materials Science I

Instructor Name: Camila Santander

Instructor Contact Information:

Office: 4-551 Donadeo Innovation Centre for Engineering

e-mail: csantand@ualberta.ca

Revised course assessment plan

Mark distribution

Assignments	Approximately weekly	25%
Mid-term exam	Friday, March 6th	45%
Final exam	Start: Wednesday, April 22 nd End: Thursday, April 23 rd	30%
Total		100%

The Final exam will be a 24 hour study case exam. The students will have 24 hours to solve a case study question exam which will require for the students to analyze, apply knowledge, reason and draw of conclusions. The topics that will be evaluated are composite, electronic, magnetic and photonic materials.

Created March 24, 2020

IMPORTANT NOTES:

- If students require alterations in their approved accommodations, please contact arrec@ualberta.ca.
- The changes with respect to the mode of delivery of instruction and assessment and the changes to grading regulations do not constitute grounds for an appeal under academic appeal policies (i.e. grade or academic standing appeals may not be advanced on the grounds of these changes).
- When Incomplete (IN) status is assigned instructors are required to communicate with students about the mechanisms and requirements that will be implemented to determine the student final grade of CR or NC. For more information, including the time to complete the remaining course work see the [University Calendar](#).
